

HUSNA ANJUM

Data Analyst

9353196658 | husnaanjum729@gmail.com | [LinkedIn](#) | [GitHub](#) | Bangalore, India

PROFESSIONAL SUMMARY

Data Analyst and Cloud Computing enthusiast with hands-on experience in Python, SQL, Power BI, Machine Learning, and Cloud Technologies. Skilled in data analysis, dashboard development, predictive analytics, and full-stack web development through academic projects and internships. Passionate about solving business problems using data-driven insights.

SKILLS

- **Technical Skills:** Python, Java, JavaScript, PHP, C/C++
- **Core Concepts:** Data Structures, OOPS
- **Data Analytics:** SQL, MySQL, Power BI, Excel
- **Machine Learning:** Scikit-learn, NLP, Data Visualization, Pandas, NumPy, Feature Engineering, Model Evaluation.
- **Cloud Platforms:** AWS, Google Cloud, Azure
- **Web Development:** HTML, CSS, JavaScript, PHP
- **Operating Systems:** Windows, Linux
- **Other Tools:** Git, GitHub, VS Code, XAMPP, Streamlit, Claude AI, Google Gemini, ChatGPT.
- **Soft Skills:** Problem Solving, Communication, Analytical Thinking, Team Collaboration, Time Management.

EDUCATION

Bachelor of Engineering (Pursuing) - HKBK College of Engineering, Bangalore

Dec 2023 - Expected Graduation: 2027

Current CGPA: 8.38

Diploma in Computer Science & Engineering - DVS Polytechnic, Shivamogga

Sep 2021 - Jun 2023

CGPA: 9.08

EXPERIENCE & INTERNSHIP

Innovant IT Solutions, Shivamogga

Intern | Mar 2023 - Jun 2023

- Developed and maintained web application modules using HTML, CSS, JavaScript, PHP, and MySQL. Assisted in application testing, debugging, and deployment improved prediction accuracy to **92%**.

PROJECTS

Traveling Guide Web Application (HTML | CSS | JavaScript | PHP | MySQL)

- Developed a responsive travel guide platform using HTML, CSS, JS, PHP, MySQL, and XAMPP. Designed dynamic features for destination search and trip planning and integrated a centralized MySQL database.

Chatbot for Customer Service (Java | NLP | OOP | Algorithms)

- Developed a Java-based chatbot with NLP capabilities and designed seamless conversational flow for customer support for user feedback and QA testing.

Portfolio Website

- Designed and deployed a responsive portfolio website using HTML, CSS, and JavaScript integrated with GitHub, LinkedIn, and Netlify for professional showcasing.

Spurious Tattle Detection (Python | Machine Learning | NLP)

- Developed a fake news detection model using Python, NLP, TF-IDF, and Scikit-learn by implementing Logistic Regression and Random Forest models.

CERTIFICATIONS

- Google Cloud: Introduction to Image Generation, LLMs, Prompt Design, Generative AI
- Data Science 101, SQL & Relational Databases - United Latino Students Association
- Linux, Network Security, and Computer Networking - Great Learning
